

ZAXIS-7 series

HITACHI

Reliable solutions

ZAXIS210 / 225_{us} / 225_{usR}

HYDRAULIC EXCAVATOR

Model code : ZX210LC-7 / ZX210LCN-7

Engine rated power : 128.4 kW (ISO 14396) /
122 kW (ISO 9249)

Operating weight : 21 900 – 23 900 kg

Bucket ISO heaped : 0.51 – 1.20 m³

Model code : ZX225US-7

Engine rated power : 128.4 kW (ISO 14396) /
122 kW (ISO 9249)

Operating weight : 24 800 – 29 100 kg

Bucket ISO heaped : 0.51 – 1.20 m³

Model code : ZX225USR-7

Engine rated power : 128.4 kW (ISO 14396) /
122 kW (ISO 9249)

Operating weight : 24 800 – 25 800 kg

Bucket ISO heaped : 0.51 – 1.20 m³

You're in control

You're at the heart of Hitachi's design for its latest range of excavators. To continuously improve on previous generation machines we've focused on enhancing your experience in the cab as an operator.

We've considered the challenges you face as the owner of a successful business. And we've zoomed in on the ways in which we can support you over the life cycle of your machine.

By putting you at the heart of the Zaxis-7 range, we invite you to take control – over your workspace and your fleet. And by working in partnership, we will help you to create your vision.

Inside

In control of your business

8. Improve your profit

In control of your comfort

10. Feel the difference

In control of your environment

12. Increase your safety

In control of your assets

14. Boost your uptime

In control of your fleet

16. Manage your machine

In control of your uptime

18. Protect your investment

In control of your performance

20. Get more from your machine

Complete control

The new Zaxis-7 range of medium excavators puts you firmly in control, so you can feel assured of your machine's performance, and supported by the technological expertise and services that Hitachi provides.

The expanded cab interior provides a more comfortable working environment.

Sensors monitor oil continuously and contribute to preventative maintenance, helping to reduce downtime.

ConSite Pocket app allows you to manage and monitor your fleet remotely.

Options such as Hitachi ground engaging tools enable you to enhance the performance of your excavator.

Integrated console and seat suspension gives a greater sense of control, and helps to reduce fatigue.

Visibility of the job site is excellent thanks to the Aerial Angle camera system and new LCD monitor.

The ZX225US-7 has the shortest tail swing radius (1680mm) in its size class.

The ECO gauge on the monitor indicates how to lower fuel consumption and reduce costs.

Improved access to components ensures maintenance is quick and easy.

The improved TRIAS III hydraulic system reduces fuel consumption and increases efficiency.

Control zone

Enhanced comfort and safety features are at your fingertips in the refined cab of Zaxis-7 excavators, giving you the power to perform productively, with ease and reduced fatigue.

- ① **Increased sweeping area of parallel link wiper** enhances visibility in difficult working conditions.
- ② **Air conditioning and audio** are easily controlled via the monitor.
- ③ **Low-reflective colour 8" LCD monitor** is easy to view and navigate.
- ④ **USB socket and smartphone holder** helps you stay connected.
- ⑤ **Drinks holder** is easy to detach for cleaning.
- ⑥ **Additional joystick controls** for effortless operation.
- ⑦ **Ergonomic design** gives you convenient access to controls.
- ⑧ **Bluetooth®** for hands-free calls and **DAB+** radio for music while you work.
- ⑨ **Multifunctional control panel** makes operation easier.
- ⑩ **Improved sound isolation** makes this one of the quietest cabs in the market.
- ⑪ **User-friendly storage space** keeps your workspace tidy and clutter-free.
- ⑫ **Coat hooks** take care of your personal belongings.
- ⑬ **One-touch adjustment lever for console** so you can work comfortably in the optimum position.
- ⑭ **Integrated console and seat suspension** gives a greater sense of control and helps to reduce fatigue.
- ⑮ **Increased legroom** creates a more spacious cab.
- ⑯ **Optimal pedal layout** helps to reduce fatigue.

Operation is easy with ergonomically designed controls and switches.

Left: the spacious cab of the ZX225US-7 and ZX225USR-7.

Bluetooth® connection for hands-free calls while you work.

Improve your profit

The success of your business depends on the reliability and efficiency of your construction machinery. With Hitachi's latest Zaxis-7 medium excavators, you can count on the highest quality, the ultimate in operating comfort and reduced running costs – all of which will have a positive impact on your bottom line.

You can look forward to increasing your profits thanks to the impressive fuel economy of these Stage-V compliant machines. The stunning new-look ZX210-7, ZX225US-7 and ZX225USR-7 deliver up to 11% less fuel consumption than the previous models.

Hitachi's industry-leading hydraulic system, the new TRIAS III, ensures that this incredible level of performance is achieved in every application. Its superior efficiency excels while loading or during heavy digging operations.

Your operators can also control fuel efficiency – and reduce costs – by using the all-new ECO gauge. This is clearly visible on the multifunctional colour LCD eight-inch monitor.

In addition, you can boost your profits by working on a wider range of projects thanks to the excellent versatility of Zaxis-7 excavators. Choose from a variety of specifications to meet the requirements of any job site, including mono and 2-piece boom, and long (LC) and narrow (LCN) undercarriage options for optimal stability or easy transportation. The ZX225US-7 also has a class-leading, ultra-short swing radius of 1,680mm, and an optional dozer blade. Different attachments are quickly changed using the enhanced attachment support system on the monitor.

With a simple adjustment to suit your operator's preference and job site requirements, you can fine-tune your machine for optimum productivity – while still reducing fuel consumption. Special application versions of these models can be used for specific tasks, such as slope finishing and dredging (super long front), and underground excavation (telescopic arm).

A fuel saving of up to 11% is achieved with the TRIAS III hydraulic system.

TRIAS III provides optimum operating efficiency on every job site.

The ECO gauge helps to deliver better fuel consumption.

The ultra-short swing radius and optional dozer blade of the ZX225US-7 increase versatility.

You're in control with a spacious, tidy and enjoyable working environment.

The ZX225US-7 and ZX225USR-7 cab has a larger interior and wider door opening for easier access.

The LCD monitor is easy to view with hi-res anti-glare screen.

In control of your comfort

Feel the difference

Hitachi's redesigned, state-of-the-art Zaxis-7 excavator cab gives you the perfect working environment. The ultra-spacious ZX210-7, ZX225US-7 and ZX225USR-7 offer you an industry-leading, first-class cab with the ultimate in comfort and quality, as well as some of the lowest noise levels in the market and 16% less vibration than the previous generation. The cab of the ZX225US-7 and ZX225USR-7 has a 15cm wider door opening and an enlarged interior, with increased legroom for greater comfort.

Feel the difference with the synchronised motion of the seat and console, designed to ensure you feel less tired at the end of the working day. Stretch out in the most spacious Hitachi cab yet, with improved pedal layout and ample head clearance. And sit comfortably thanks to the easily adjustable console height with three positions to choose from.

Easy operation comes from the new ergonomic design of the console and switches, and convenient access to controls. You can navigate quickly through the menu on the 8" LCD monitor with the multifunctional controller. The hi-res anti-glare screen is also easier to view, and the refreshed layout offers a clear display and desirable functionality – such as air conditioning, DAB+ radio and Bluetooth®.

With more storage for your personal belongings, such as your coat, smartphone and drink, you'll feel instantly relaxed and ready for your shift. Added practical functions to the joysticks, such as wiper, engine idle and audio mute controls, will make your working day effortless and enjoyable.

Ergonomic multifunctional control panel provides easy access.

Increase your safety

Your ability to work safely is vital, not only for your own wellbeing, but also for the successful completion of any project. To protect yourself and your machine from potential hazards, the new Hitachi Zaxis-7 excavators give you a superior view of your surroundings, so you can see the job site from all angles.

The visibility you enjoy from the cab includes an exceptional 270-degree bird's-eye view with the Aerial Angle camera system. You can choose from six image options to view the machine's immediate environment, which enables you to control your own safety – as well as that of those around you. In the ZX225US-7 and ZX225USR-7, visibility has been further improved to the front – due to lowering of the sash bar – and to the left because of the relocation of the central pillar.

To help you to work more confidently and efficiently, even in the most challenging of conditions, Zaxis-7 excavators are fitted with some impressive new features. From the LED work lights and the windscreen wiper with an increased sweeping area, to the large reflective strips on the counterweight and optional roller sunshades, you'll have the visibility you need when it matters most.

Attention to detail is also fundamental to a safe working environment – and the repositioning of the pilot shutoff lever is a perfect example. It is now within easy reach to prevent any unintentional actions.

Wider wiper design provides greater visibility.

Control your safety with the 270-degree view Aerial Angle camera system.

Choose between different image layouts to suit your working environment.

LED work lights improve visibility in challenging conditions.

Wide steps on the ZX225US/USR-7 allow for easier maintenance.

New hand rail on the ZX225US/USR-7 is retractable for easy transport.

Maintenance is easy at ground level.

New layout provides convenient access to all filters.

Designed for durability and easy maintenance, Zaxis-7 excavators increase uptime and reduce the total cost of ownership.

In control of your assets

Boost your uptime

Completing a project on time and on budget depends on the ability of your construction equipment to perform all day, every day. That's why Hitachi owners have profited from generations of ultra-reliable and durable machinery – and the Zaxis-7 range is no exception.

The latest Hitachi medium excavators have been built to last, so that you can remain in complete control of your assets. They have been tested rigorously and continuously at dedicated facilities in Japan with the goal of significantly boosting your uptime.

As a result, a wide range of durable new components have been fitted to the latest Stage-V compliant machines – even down to the detail of the rigidity of the door hinges. Now standard on our Zaxis-7 range is a high-performance hydraulic filter to capture any dust in the hydraulic oil and help to reduce running costs.

Downtime is minimised by the priority given to easy maintenance and cleaning – saving you time and money. Features such as the wider door and cover openings on the ZX210-7, and new filter layout, and larger steps and engine cover on the ZX225US/USR-7, provide easier and quicker access for daily inspections.

Manage your machine

Hitachi offers a wide range of after-sales services to help you feel in total control of your fleet and workload. These initiatives give you access to vital data and tools to manage your machine.

Remote monitoring systems Owner's Site and ConSite send operational data daily via GPRS or satellite from your excavator to www.globaleservice.com. This includes: ratios of operating hours to enhance efficiency; fuel consumption to manage running costs; and machine location for planning purposes. ConSite summarises the information in a monthly email.

The ConSite Pocket App sends you real-time alerts for issues arising with your machine. You'll receive recommendations on what to do and step-by-step help guides. The app also enables you to see the location of your fleet.

A unique innovation continuously monitors the quality of engine and hydraulic oil, 24/7. Data is transmitted daily via two oil sensors to Global e-Service. These detect if the oil quality has deteriorated, due to contamination or low viscosity. If this happens, you and your authorised Hitachi dealer will receive an alert.

This innovative feature provides accurate estimations of when oil changes are required. It reduces maintenance and unscheduled downtime, and gives you peace of mind thanks to scheduled servicing and ultimately a higher resale value.

The unique oil sensor reduces maintenance and downtime.

A wide range of data on Global e-Service enhances efficiency.

The alerts on the ConSite Pocket App provide real-time information.

Minimise downtime with Hitachi Genuine Parts.

HELP extended warranties and service contracts provide optimal performance.

Hitachi Premium Rental enables you to pay as you earn.

Hitachi provides the highest level of technical support.

In control of your uptime

Protect your investment

If your machine will be working in severe conditions, or you want to minimise repair costs, you can take advantage of a unique extended warranty programme called HELP (Hitachi Extended Life Program) and comprehensive service contracts. These can help to optimise performance, reduce downtime and ensure a higher resale value.

We apply the same technological expertise to our wide range of high-quality parts as we do our machines. As a result, you can minimise unscheduled downtime and ensure maximum availability.

The parts range includes Hitachi Genuine Parts, Performance Parts, filters, undercarriages, and remanufactured components. We also offer ground engaging tools and buckets, which have been manufactured to the same exacting standards.

As your business grows, you may need to extend your fleet to meet the demands of new contracts. Why not try before you buy with the Hitachi Premium Rental programme? This gives you immediate access to Zaxis-7 medium excavators for a period of one month to a year.

Along with the reliability, quality and service you would expect from the Hitachi brand, Hitachi Premium Rental offers flexible contracts and fixed costs that make it easier for you to budget.

In control of your performance

GET more from your machine

Designed to work in perfect harmony with your machine, Hitachi's durable hydraulic breakers, buckets and ground engaging tools (GET) will increase your profit by maximising productivity and uptime. Manufactured to the same high standards as all Hitachi construction equipment, they offer unrivalled reliability and exceptional performance.

Buckets

You can increase the versatility of your excavator by choosing the right bucket for the job. For loading light materials or heavy-duty work, Hitachi buckets can be customised to meet your needs. You have a wide range of options to choose from – including GD, HD and XHD buckets with different capacities and widths – and quick coupler connections such as CW, pin grabber and S-coupling are also available.

Ground engaging tools

You can enhance the digging power and productivity of your excavator with Hitachi GET. Quick and safe to install and replace, they fit precisely to your attachments and can be tailored to suit the task. Using Hitachi GET can reduce your maintenance costs and downtime, lower fuel consumption and enhance the overall performance of your machine.

Breakers

High-performance hydraulic breakers – approved by Hitachi – are perfectly suited to medium excavators. They are easy to maintain and user-friendly, and their high-quality materials ensure a long lifetime. This means reduced maintenance costs, fewer replacement parts and minimal downtime.

Hitachi buckets, GET and breakers are manufactured to the same high standards as all Hitachi construction equipment.

Hitachi buckets can be customised to suit the application.

Hitachi breakers are lightweight with high impact energy.

Hitachi GET include self-sharpening teeth and reliable adapters to ensure a precise fit.

EH dump trucks and EX ultra-large excavators

Special application excavators

Create your vision

In control of your world

When you take delivery of a Hitachi machine, you become part of the latest generation of a global family. With a 50-year heritage in designing hydraulic excavators, and a reputation as the industry's leading mining machine manufacturer, the Hitachi network will give you access to a range of exceptional construction equipment.

Like the new Zaxis-7 excavators, Hitachi wheel loaders, rigid dump trucks, and special application machines incorporate advanced technology and pioneering expertise. This is inspired by parent company Hitachi Ltd, which was founded on the philosophy to make a positive contribution to society through technology.

In addition to the latest products made at state-of-the-art facilities and built to the highest quality standards, you'll have the support of our experienced engineers and dedicated dealer personnel. You'll also benefit from market-leading services and initiatives, such as Premium Rental and Premium Used, which have been created to enhance your experience as a Hitachi customer.

Whatever vision you wish to create, Hitachi has the product, people, solutions and services you need to make it become a reality – and empower you to take control of your world.

SPECIFICATIONS

ENGINE

Model	Isuzu 4HK1
Type	4-cycle water-cooled, common rail direct injection
Aspiration	Variable geometry turbocharged, intercooled, cooled EGR
Aftertreatment	DOC+CSF+SCR system
No. of cylinders	4
Rated power	
ISO 14396 : 2002	128.4 kW at 2 000 min ⁻¹
ISO 9249 : 2007	122 kW at 2 000 min ⁻¹
Maximum torque	670 Nm at 1 600 min ⁻¹
Piston displacement	5.193 L
Bore and stroke	115 mm x 125 mm
Batteries	2 x 12 V / 126 Ah

HYDRAULIC SYSTEM

Hydraulic Pumps

Main pumps	3 variable displacement axial piston pumps
Maximum oil flow	1 x 184 L/min 2 x 212 L/min
Pilot pump	1 gear pump
Maximum oil flow	33.7 L/min

Hydraulic Motors

Travel	2 variable displacement axial piston motors
Swing	1 axial piston motor

Relief Valve Settings

Implement circuit	34.3 MPa
Swing circuit	32.4 MPa
Travel circuit	34.3 MPa
Pilot circuit	3.9 MPa
Power boost	38.0 MPa

UPPERSTRUCTURE

Revolving Frame

D-section frame for resistance to deformation.

Swing Device

Axial piston motor with planetary reduction gear is bathed in oil. Swing circle is single-row. Swing parking brake is spring-set/hydraulic-released disc type.

Swing speed	11.4 min ⁻¹
Swing torque	68 kNm

UNDERCARRIAGE

Tracks

Tractor-type undercarriage. Welded track frame using selected materials. Side frame welded to track frame. Lubricated track rollers, idlers, and sprockets with floating seals.

Track shoes with triple grousers made of induction-hardened rolled alloy. Heat-treated connecting pins with dirt seals. Hydraulic (grease) track adjusters with shock-absorbing recoil springs.

Numbers of Rollers and Shoes on Each Side

	ZX210LC-7 / ZX210LCN-7	ZX225USLC-7	ZX225USRLC-7
Upper rollers	2	2	2

MACHINE CAPACITIES

ZX210LC-7 / ZX210LCN-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. 0 m = Ground.

A: Load radius
B: Load point height
C: Machine capacity

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch.

Optional feature may affect machine performance.

MACHINE CAPACITIES

ZX225USRLC-7

- Notes:
1. Ratings are based on ISO 10567 : 2007.
 2. Machine capacity does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity.
 3. The load point is the center-line of the bucket pivot mounting pin on the arm.
 4. *Indicates load limited by hydraulic capacity.
 5. 0 m = Ground.

A: Load radius
B: Load point height
C: Machine capacity

For machine capacities, subtract installed attachment and quick hitch weight from machine capacities.

To determine lifting capacities, apply "Rating over-side or 360 degrees" machine capacities from the table and deduct weight of installed attachment and quick hitch.

Optional feature may affect machine performance.
